47 - 48	1.90	103.4 - 107.7
49 - 50	2.00	107.8 - 110.0

Chart based on 5 mg/mL concentration (0.04 mL/kg)

IV access preferred

May be given intranasally with regular syringe (no needle) or IM if no IV access

If delivered IM, may need more or higher dose
