Animals in Disasters: Enhancing Response Capabilities

SC Flooding Oct 15

Your Presenter

Dick Green, Ed.D.

Senior Director Disaster Response

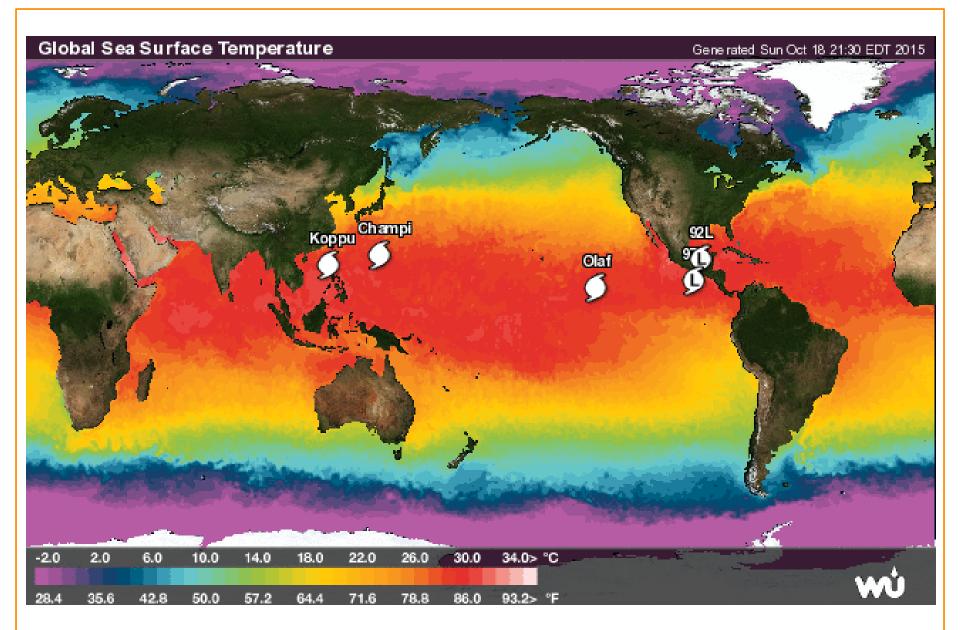

ASPCA

Tropical cyclones Oct 15

And that was just last weekend!

Greenville, SC Oct 15

"Dramatic Increase in Disasters"

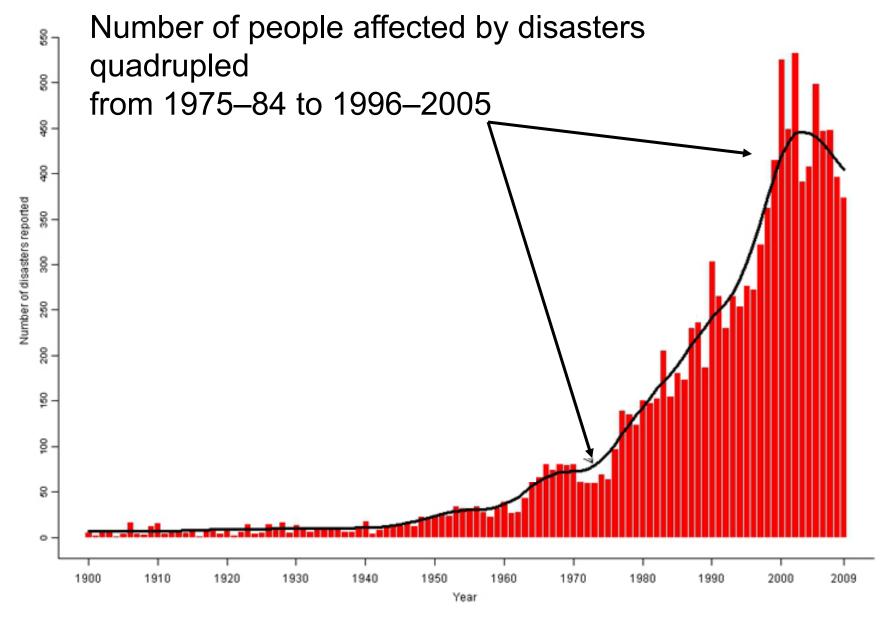

- Population growth
- Urbanization
- Environmental fragility
- Move toward coastal areas
- Global climate change

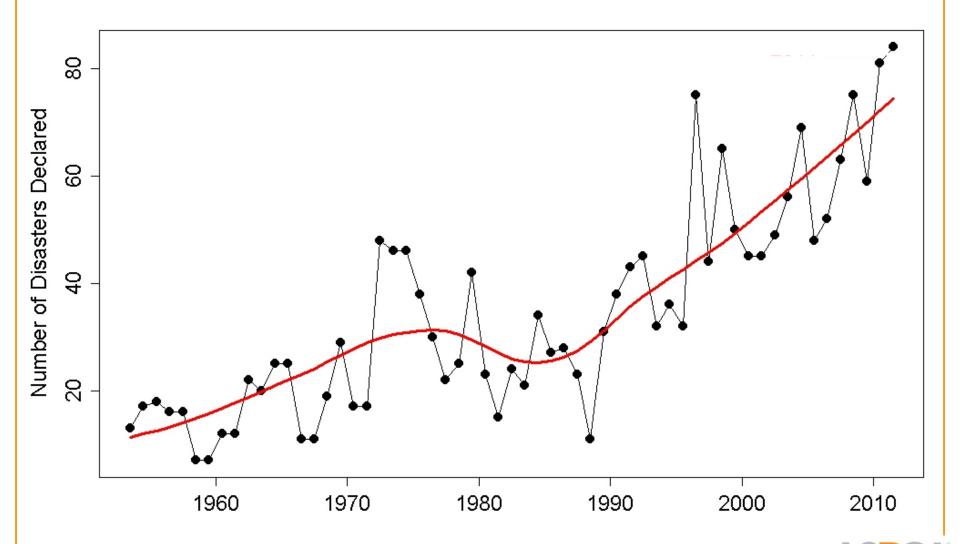

Great Job Security! 10 Tropical storms 5 Earthquake 2 Landslides 2 Tsunami 4 Volcanoes 3 Tornadoes

10 Floods

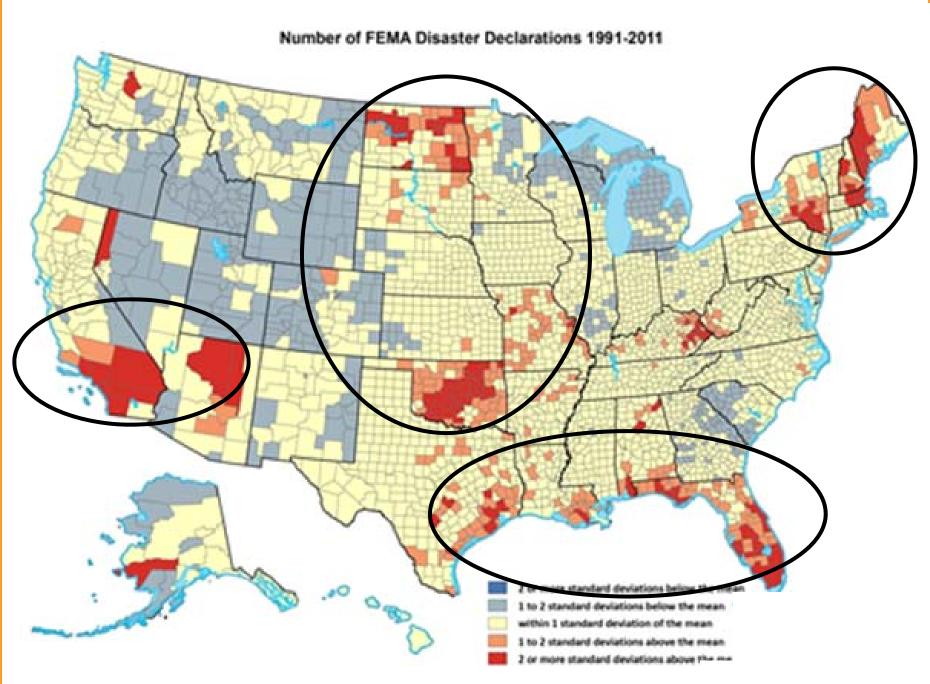

7 Fires

U.S. Federally Declared Disasters

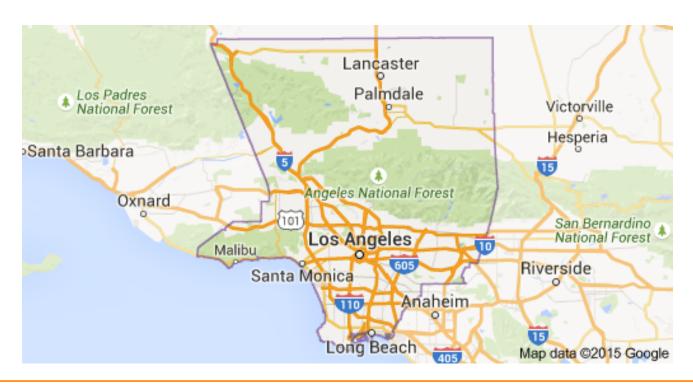

Setting the Stage: Los Angeles County

- Total population: 10M
- Total Number of Households: 3.2M
- Average number of people/HH = 3.01

- 3.2M households
- 53% of HH own pets
- 2.7 pets/HH
- 3.2M X 0.53 X 2.7 = **4.6M pets***

*52-59% human population (5.2-5.9M pets)

Natural/Man-Made Disaster

- Devastating earthquake 40% of the county impacted (5M X 0.40 = 2M pets)
- 5-30% will seek shelter
 100-600K* pets needing shelter
- ~500,000 sheltering units\$25M
- Staffing Needs (*not including transport, ASAR, or IMT)

7-10:1 ratio – 50K

25:1 - 20K

Number of shelters

$$500 - 1K$$

1000 - 500

SoCal 15 Capstone Exercise

- May 11-14, 2015
- 7.8 Earthquake on San Andreas Fault
- 10 million people affected; 2.5 million shelter-in-place; 500,000 in shelter; 50,000 injured
 - 500,000 pets needing shelter (revised down to 321,000)
 - 148,000 "abandoned"
 - 173,000 sheltering or needing shelter
 - 2,000 horses needing evacuation and shelter
 - Escaped exotics needing recapture, transport, shelter
 - Carcass disposal: 1,000 cattle; 1,000-2,000 poultry

"We are woefully ill-prepared to be able to respond to the animal needs in a large-scale event impacting large numbers of animals — we simply don't have the resources..... And in those parts of the country where we are rich in resources, we don't have the necessary capabilities to effectively carry out a large-scale, complex operation."

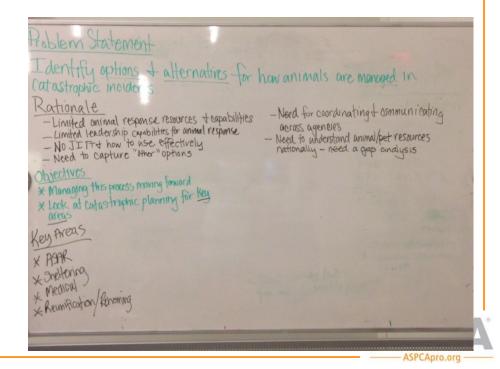

OTBT

- Co-located or co-habitation sheltering
- Containment areas for aggregate sheltering
- Resources and capabilities
- Resource Integration
- Non-traditional Sheltering!!

More Resources – Enhanced Capabilities

- Resources doesn't necessarily equate to capabilities
- Large pool of responders
- Relevant experience or training
- Availability
- Equipment and Supplies
- Retention

Responders v. Function

- Transitioning from Animal Care and Handling Specialists to typed Shelter Teams
- How many animals can they properly care for?
- Team composition
- Leadership
- Equipment
- Training/Experience
- Time to arrive
- What do they bring to party?
- What are the critical functions needed following a disaster?

10 year Hurricane Katrina Commemorative Bootcamp

Slack Water Rescue
Conducting an Assessment
Wildand Fire Interface
Pet First Aid
Animal Decontamination
Large Animal Rescue
Animal Handling

National Forum on Catastrophic Planning
Small /Large Animal Sheltering

What can you do?

- Personal disaster plan
- Include your animals!
- <u>ASPCA.org</u>-disaster preparedness

What to do for your pet before, during, and after a disaster

Bulleted checklist of items for preparation

Useful tips to keep pets safe

What can your community do?

- Pets included in the Emergency Operations Plan
- Pet-friendly shelters
- County Animal Response Team (CART)

Mutual Aid Agreements (MAA)

MAAs help clarify roles and responsibilities before an emergency event

Facilitates the rapid mobilization of personnel, equipment, and supplies.

SC Flooding Oct 15

What can the State do?

- Animals included in their Emergency Operations Plan
- Annex, Appendix, Emergency Support Function
- Coordination with counties
- Coordination with other states

LDAF, Aug 15

Federal Coordination

- FEMAMass CareUS&R
- USDAAPHIS ACVet Services
- HHSNDMSNVRT

Federal, State, and NGO Cooperation

What can the ASPCA do?

Field Investigations and Response Team

The FIR Team partners with animal welfare organizations, law enforcement and emergency management to respond to animal cruelty cases and natural disasters across the United States.

Disasters

- Floods
- Hurricanes
- Tornados
- Earthquakes
- Fires
- Disease Outbreaks

Cruelty

- Hoarding
- Puppy Mills
- Animal Fighting
- Farm Animals
- Horses
- Single acts of cruelty

FIR's 2014 Impact by Numbers

National Animal Rescue and Sheltering Coalition

2015 ASPCA Capabilities Project

- Develop a survey of local, state, and national resources and capabilities
- Develop a Community Assessment Tool for determining level of readiness
- In priority communities, perform a Needs Assessment
- Facilitate a 1-2 year Improvement Plan

NCARE Survey

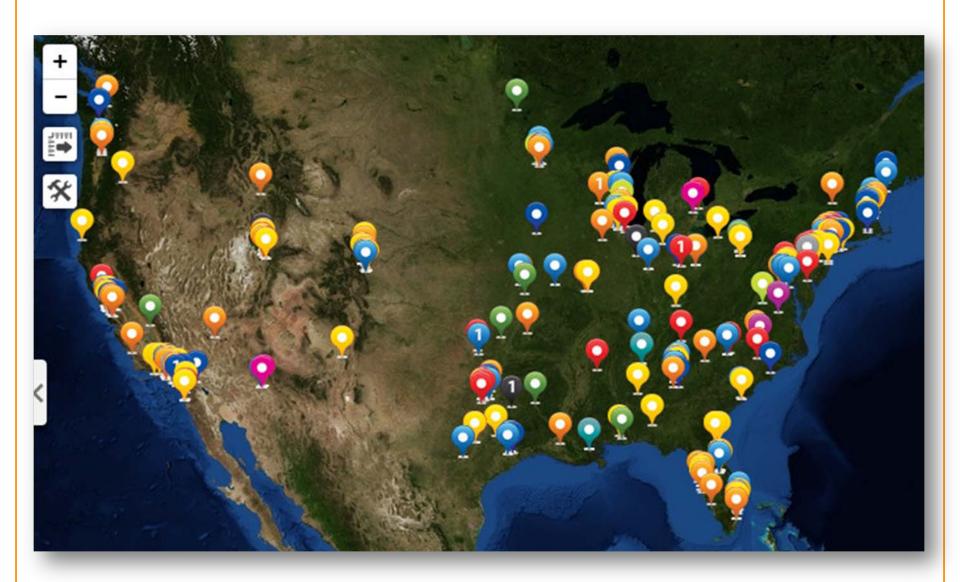

National Capabilities for Animal Response in Emergencies

- Better understanding of state and county resources and capabilities;
- Level of nationwide preparedness; and
- Identify counties, states, or regions that would benefit from ASPCA support.

October 5, 2015 – survey launched

Sent to state emergency management directors of 10 states

October 7, 2015

 Sent to state emergency management directors in remaining 40 states

October 19, 2015

 Sent to county emergency management directors in 10 Midwestern states

End of October

Sent to county EM directors in remaining 40 states

Community Preparedness Checklist

An animal-specific Preparedness Checklist identifying all of the components we recognize as being critical for a community to be *disaster resilient*.

As part of the NCARE survey, we ask respondents if they want help building animal response capability.

In strategic areas, we will meet with EM and animal welfare groups to identify strengths and weaknesses and to build an improvement plan.

Thank you
