

Ingredients

- Cardboard boxes (at least 5)
- Super yummy, smelly treats

Prep

- Evaluate dogs in advance for any resource-guarding tendencies, since safety of both dogs and humans are key
- Have only staff or experienced volunteers guide the activity
- Work dogs one at a time without other dogs present

Play!

- Put a smelly, delicious treat in one of the boxes (Make sure the dog isn't looking!)
- Release the dog to find the treat
- As she finds the treat, give praise and drop a few bonus treats into the box
- Rearrange the boxes (again, don't let her see)
- Encourage the dog to find the treat again
