

Spot Cleaning For Dog Kennels

[The Companion Sheet to our Video Tutorial](#)

You'll Need:

- Gloves & Protective Glasses
- Hose-end foamer
- Concentrated accelerated H2O2
- Scoop tools
- Squeegee
- Scrub brush

1. Move dog to opposite side of guillotine door in kennel
2. Remove all items from kennel (bowls, blanket, toys)
3. Remove feces and debris from kennel
4. Hose kennel with accelerated H2O2
5. Use long-handled brush to scrub floor
6. Let disinfectant stand for 5 minutes
7. Use squeegee to move water down the drain and let kennel air dry
8. Return dog to clean side of kennel and spot clean other side
