

Research on Olfactory Enrichment:

Applied Animal Behaviour Science (in press)

The behavioural effects of olfactory stimulation on dogs at a rescue shelter

Johnathan Binks, Sienna Taylor, Alison Wills, V. Tamara Montrose

Applied Animal Behaviour Science 123 (2010) 56–62

The influence of olfactory stimulation on the behaviour of cats housed in a rescue shelter Sarah

L.H. Ellis, Deborah L. Wells

Applied Animal Behaviour Science 118 (2009) 1–11

Sensory stimulation as environmental enrichment for captive animals: A review

Deborah L. Wells

Applied Animal Behaviour Science 91 (2005) 143–153

The influence of olfactory stimulation on the behaviour of dogs housed in a rescue shelter Lynne

Graham, Deborah L. Wells, Peter G. Hepper

Applied Animal Behaviour Science 85 (2004) 307–317

A review of environmental enrichment for kennelled dogs, *Canis familiaris*

Deborah L. Wells

Research of Auditory Enrichment

Journal of Veterinary Behavior (2012) 7, 268-275

Behavioral effects of auditory stimulation on kenneled dogs

Lori R. Kogan, Regina Schoenfeld-Tacher, Allen A. Simon

Applied Animal Behaviour Science (2016) v 174, 111-115

The effects of audiobooks on the behaviour of dogs at a rehoming kennel

C. Brayley, V.T. Montrose

Exercise and Human Contact

Behavioural Processes, (2018) v 146, 54-60

The effects of exercise and calm interactions on in-kennel behavior of shelter dogs

Alexadra Protopopova, Hagar Hauser, Kissel J. Goldman, Clive D.L. Wynne

Veterinary Record, November 2, 2011

Effects of exercise and human contact on animal welfare in a dog shelter

D.J. Menor-Campos, J.M. Molleda-Carbonell, R. Lopez-Rodriguez
