

WELCOME TO KITTEN PALOOZA

More than 100 kittens and close to 50 cats are here for adoption today!

GETTING STARTED

1. One person from your party will need to fill out an adopter form
2. Next, you will get a number and wrist band at the registration table
3. For kittens only or for kittens & cats, go to Registration Line 2, 3, or 4
For adult cats only or retail only, go to Express Registration Line 1
4. Read through the rest of this handout for more information

Note: If you go inside for retail or to adopt an adult cat and then decide you want to adopt a kitten, you will have to go back outside and get in line again. Any kittens you saw may be adopted before its your turn to go in again. So don't try to be sneaky; it's not worth it and it makes us hiss! If you think you **might** want to meet kittens, get in the kitten line now.

Groups will go inside by number. We'll call your number when it's your turn. Your entire group will need to be ready to enter together.

We know it's exciting! We'll get everyone in to see kittens and cats as quickly as possible, but adoption is a serious decision that deserves a little time. Plus, a crowded shelter is a safety hazard. We have a "cooling station" to help you beat the heat; a port-a-potty is also available. Please be prepared to wait—enjoy games, activities, and food while you do. Your patience is appreciated and it makes us purr!

WHEN YOU GET INSIDE

You can meet kittens for adoption today in three separate areas on the shelter's first floor: Retail Lobby, The Playhouse (behind the lobby), and Catnip Alley (follow signs inside). We encourage you to visit each area before you make a final adoption decision. Most adult cats are located upstairs.

CAT staff and volunteers will help direct you and may be able to point you toward cats/kittens that might be a good fit for your household.

ABOUT OUR KITTENS

Most kittens for adoption today have spent time in loving foster homes. Many kittens and all cats have *purrsonality* keywords listed near their name to help you find a good match.

All cats and kittens must be spayed or neutered before they can go to their new home. Most felines are ready to go home today, while some are “pre-adopt” only. Pre-adopted felines cannot go home with you immediately; you’ll have to wait between 4-14 days until they can have surgery. Surgery appointments depend on our hospital schedule and the animal’s current age, weight, and health.

After you’ve made your final decision, an adoption counselor will work with you to finalize paperwork and get any other information you need (this final step takes about 20 minutes).

STILL HAVE QUESTIONS?

Stop by our “Kitten Experts” booth for more information and to ask questions about our adoption procedure and fees, how to pick out a cat or kitten, what to expect when you get home, how to introduce a new cat to other pets, and more!

KEEP PETS SAFE! Absolutely no animals are to be left unattended in cars or outdoors at this event. Visitors with unattended pets will be asked to leave and take their animals home immediately. No animals, except service animals, are allowed to accompany visitors into CAT’s building.

Plan to take your new feline friend directly home after your adoption.

CAT’s retail store has many of the items you’ll need, and your purchases help us save more cats and kittens! If you do plan to shop elsewhere, you should drop off your new kitty at home first.

While you’re visiting, please use hand sanitizer between touching different cats/kittens to cut down on the spread of germs. No kittens should be set on the floor or carried into another room. Thank you for visiting CAT today—we hope you find a friend!

(This is the back. Did you read the front?)
