

Do Not Exit This Room Without Removing PPE

Instructions for removing Personal Protective Equipment

1

Removing the gown/suit: Start by pulling off the suit or gown from the outside with your gloved hands.

2

Remove gloves with the gown/suit, then roll the garment off by touching the inside only.

3

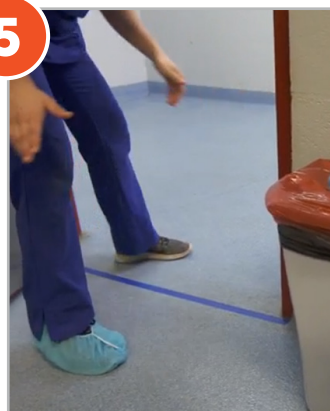

Dispose of used gown or suit and gloves in the designated trash receptacle.

4

Remove shoe covers: Hold the door open with your body and place the bare shoe in the clean area.

5

Place used shoe covers in the designated trash receptacle.

6

Wash your hands prior to moving on to another task.

The door handle should remain clean – only touch after removing contaminated gloves as described above.
