<b>Capacity related terms</b>	
<b>Number of permanent cages</b>	This number only includes cages that are permanent (and functional) in the facility. Do not include cage banks that are wheeled out to handle overflow, pop up crates or condos that are set up throughout the facility.
<b>Number of group housing units</b>	Some facilities have designed colony housing for cats, or dog suites designed to house more than one animal at a time. List the number of these units available. Note: "T" or Guillotine style dog kennels ARE NOT group housing units and should be counted as one kennel run.
<b>Dog shelter capacity (#)</b>	The number of permanent cages (each counted as 1) + (the number of group housing units X the number of animals each is designed to hold).
<b>Cat shelter capacity (#)</b>	The number of permanent cages (each counted as 1) + (the number of group housing units X the number of animals each is designed to hold).
<b># of active foster homes</b>	Number of foster homes with at least one animal in them on the last day of the month.
<b># of active satellite location kennels</b>	Number of offsite/satellite adoption locations (e.g., PetSmart) with at least one animal in them on the last day of the month - each cage space counts as one location. <b>End actual – in shelter</b>	The number of animals by age group (e.g., dogs, puppies, neonate canines, cats, kittens, neonate felines) in shelter (excluding those animals in foster care) on the last day of the reporting month.
<b>End actual – in foster</b>	Number of animals in foster care/homes on the last day of the reporting month, by age group.
<b>End Actual - in satellite locations</b>	Number of animals in satellite locations on the last day of the reporting month, by age group.
<b>End actual - total</b>	Reported total end in care (at shelter + in foster + in satellite locations) on last day of reporting period, by age group.
<b>Calculated end count</b>	Calculated end in care number starting with last month's reported end in care number plus Intake, minus all outcomes (return to owner, adopted, returned to field, transferred, euthanized, died in care, lost in care)
<b>Difference</b>	The difference between the reported total end count and the calculated end count. Calculation: prior months' end count (as reported), plus current month intake, minus current month outcomes. Any "difference" number not equal to zero means there is an error in one or more of the intake/outcome numbers or an end count(s).
<b>Shelter dogs as % capacity</b>	The Total Canine adult equivalent in shelter divided by the dog shelter capacity #
<b>Shelter cats as % capacity</b>	The Total Feline adult equivalent in shelter divided by the feline shelter capacity #
<b>Foster as % capacity</b>	Total animals reported as "in foster" divided by # of active foster homes
<b>Satellite locations as % capacity</b>	Total animals reported as "in satellite locations" divided by # of active satellite location kennels
<b>Dog adult equivalent in shelter</b>	# dogs + (# puppies/2.5) For example: 2 dogs and 3 puppies would be equal to 2+(3/2.5) = 3.2 dog adult equivalents.
<b>Cat adult equivalent in shelter</b>	# cats + (# kittens/2.5) For example: 2 cats and 3 kittens would be equal to 2+(3/2.5) = 3.2 cat adult equivalents
<b>Total adult equivalent in foster</b>	2 dogs + 2 cats = 4 adults. 3 puppies + 3 kittens = 6 juveniles/2.5 = 2.4 adult equivalent. Total adult equivalent: 4 + 2.4 = 6.4 adults equivalents in foster homes at month end.
<b>Total adult equivalent in satellite locations</b>	3 dogs + 2 cats = 4 adults. 3 puppies + 3 kittens = 6 juveniles/2.5 = 2.4 adult equivalent. Total adult equivalent: 4 + 2.4 = 6.4 adults equivalents in satellite locations at month end.
