

# Stress Relief for Cats

Reducing stress for cats helps them have a positive visit with us and conditions them to be more comfortable at future veterinary visits.

**Towels are a warm alternative to cold surfaces**

**Minimizing noise reduces fear and stress**

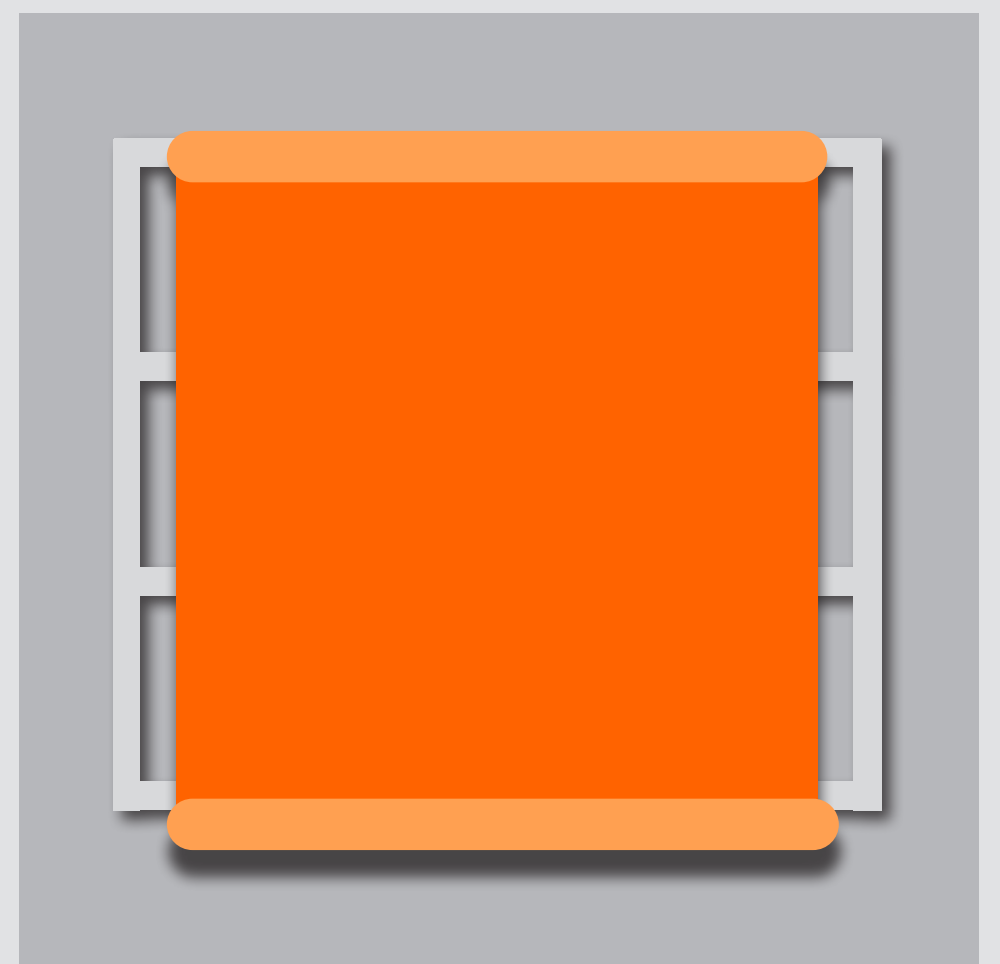

**Gabapentin reduces pain and anxiety and increases compliance**

**Pheromone sprays help cats feel at home**

**Sound machines mask loudness elsewhere in the clinic**

**Covering cages of fearful cats can help them feel safe**
