

It's not just his own tail he's chasing.

The Richmond SPCA is now offering free spaying and neutering services for dogs and cats. We're even running van transport service in some areas. Spaying and neutering will help your pets enjoy longer, healthier lives and will improve their behavior. It also reduces the population of homeless animals in our community. For details, call our Spay/Neuter Helpline: 521-1300.
